## Supplementary Material

**Tab. S1** - TTCyber Sensor Overview.

Component	Description	Measurement Principle	Technical Details
Spectrometer	Multispectral sensor capturing 28 spectral bands (410 to 940 nm). Measures sub-canopy light.	Light intensity recorded across spectral bands; converted using calibration.	AS7265x + AS7341; 28 bands; $\pm 10$ nm wavelength accuracy; autogain.
Sap Flow Probe	Monitors sap velocity using thermal pulse methods.	Heat Pulse Velocity (HPV), Heat Ratio Method (HRM), or Transient Thermal Dissipation (TTD).	3-needle probe (heater, upstream, downstream); 7.5 mm spacing; $\sim 0.5$ cm/hr error.
Growth Sensor	Tracks radial stem growth with high precision.	Magnetic linear encoder detects stem expansion via displacement.	Resolution: 0.488 $\mu$ m; operating range: $-40^{\circ}\text{C}$ to $80^{\circ}\text{C}$ ; 0-4096 DN per 2 mm polepair.
Temperature & Humidity	Monitors ambient microclimate.	Capacitive RH + bandgap temperature sensor.	SHT41 sensor (digital output); RH and $^{\circ}\text{C}$ converted from DN.
Accelerometer	Detects trunk inclination and oscillations.	3-axis accelerometry.	LIS3DH chip; XYZ axis monitoring; used to assess tree stability.

**Tab. S2** - TTCyber Communication Overview.

Feature	LoRaWAN	NB-IoT
Data Range	Up to 15 km in rural areas (1 to 5 km in urban)	Up to 10 km (urban)
Power Consumption	Very low, ideal for battery-operated remote sensors	Low, but slightly higher than LoRa
Data Bandwidth	Low, suitable for small, infrequent payloads	Higher than LoRa, suitable for more frequent or larger payloads
Latency	High latency (1 to 2s or more)	Lower latency
Gateway Requirement	Requires local LoRaWAN gateway within range	No gateway needed, uses existing mobile infrastructure
Connectivity Infrastructure	Requires setup of gateway or use of public LoRaWAN networks	Utilizes mobile network infrastructure
Best Use Case	Remote forest with dense sensor network (30+ units)	Widely dispersed units or no local LoRa coverage
Data Access URLs	<a href="http://nature4cloud.org:5001/downloads/TTCyber/[Serial]/data.txt">http://nature4cloud.org:5001/downloads/TTCyber/[Serial]/data.txt</a>	<a href="http://naturetalkers.altervista.org/TTCyber/[Serial]/ttcloud.txt">http://naturetalkers.altervista.org/TTCyber/[Serial]/ttcloud.txt</a>

**Tab. S3** - Main characteristics of Tree-Talker Italia Network. List of sites included in the network on May 2025.

ID	Site name	Site cluster	Lat. (°N)	Long. (°E)	Tree species composition
1	sito UD1 - Monte Acomizza	Sentinel	46.5503	13.5118	<i>Picea abies</i>
2	sito UD2 - Rifugio Gortani	Productive	46.5346	13.4641	<i>Picea abies</i>
3	sito UD3 - Pramollo	Transitional	46.5552	13.2847	<i>Picea abies</i>
4	sito SS1-FORESTA DORTESI - ORGOSOLO	Sentinel	40.1164	9.4360	<i>Quercus ilex</i>
5	sito SS2-SA PREDA NIEDDA - TIRSO	Productive	40.3334	9.0594	<i>Quercus suber</i>
6	sito SS3-SA PREDA NIEDDA - TIRSO	Transitional	40.3334	9.0594	<i>Quercus suber, Olea oleaster</i>
7	sito SS4-BERCHIDDA	Productive	40.7870	9.2750	<i>Quercus suber</i>
8	sito SS5-BERCHIDDA	Transitional	40.7870	9.2750	<i>Olea oleaster</i>
9	Gerola	Sentinel	46.0963	9.5343	<i>Larix decidua, Picea abies</i>
10	Intelvi	Transitional	45.9171	9.1126	<i>Betula pendula, Corylus avellana</i>
11	Masino	Productive	46.2452	9.5963	<i>Abies alba, Fagus sylvatica</i>
12	Chiusa Pesio	Productive	44.2024	7.6817	<i>Abies alba</i>
13	Chiusa Pesio	Productive	44.2118	7.6689	<i>Fagus sylvatica</i>
14	Chiusa Pesio	Transitional	44.2212	7.6658	<i>Fraxinus excelsior, Acer pseudoplatanus, Ulmus spp., Tilia cordata</i>
15	Gran Bosco	Sentinel	45.0434	6.9150	<i>Larix decidua</i>
16	Gran Bosco	Productive	45.0524	6.9077	<i>Picea abies</i>
17	Gran Bosco	Productive	45.0699	6.8916	<i>Pinus sylvestris</i>
18	Paneveggio	Productive	46.2904	11.7637	<i>Picea abies</i>
19	Bosco della Partecipanza	Productive	45.2278	8.2611	<i>Quercus robur</i>
20	Alpe Devero	Sentinel	46.3095	8.2375	<i>Larix decidua</i>
21	Antey (LTER)	Sentinel	45.8245	7.5622	<i>Larix decidua</i>
22	Borca di Cadore	Productive	46.4402	12.1914	<i>Picea abies, Abies alba</i>
23	Croda da Lago	Sentinel	46.4925	12.1045	<i>Picea abies, Larix decidua</i>
24	Piana degli Albanesi	Productive	37.9724	13.2995	<i>Pinus pinea, Pinus halepensis</i>
25	LIGONCHIO FAGGETA - Parco nazionale Appennino Tosco Emiliano	Productive	44.2501	10.4175	<i>Fagus sylvatica</i>
26	CASALINO_FONTANA -Parco nazionale Appennino Tosco Emiliano	Transitional	44.2494	10.4661	<i>Fraxinus excelsior, Acer pseudoplatanus</i>
27	Cansiglio	Productive	46.0667	12.4034	<i>Fagus sylvatica</i>

Vizzarri M, Belelli Marchesini L, Piermattei A, Santopuoli G, Ottaviano M, Parisi F, Yates J, Asgharina S, Alberti G, Antonucci S, Ascoli D, Battipaglia G, Bizzarri A, Castagneri D, Castaldi S, Coccozza C, Dionigi M, Djacenko S, Donati C, Freppaz M, Garfi V, Gentile C, Gianelle D, Giusti R, Iannuccilli M, Kabala JP, La Mantia T, Larsen S, Lasserre B, Lombardi F, Magnani F, Massari C, Matteucci G, Mazzenga F, Meloni F, Messeri A, Montella M, Niccoli F, Pellizzari S, Pindo M, Renzi F, Sala G, Salbitano F, Sammarone L, Sirca CB, Spano D, Stefani E, Tomao A, Motta R, Tognetti R, Tomelleri E, Vacchiano G, Valentini R, Marchetti M (2025).
